

# Spartanburg Train Depot Restoration

## Historic Preservation

City of Spartanburg

\$599,011

Year: 1997

The original Spartanburg Train Depot was built in 1905, but in 1996 the depot was almost lost due to a devastating fire. This enhancement project restored the fire-damaged train depot to its original glory. Newly restored, the train depot, can now serve as a multi-purpose community center. Due to the dedicated citizens of the community striving to save the run-down depot, the Spartanburg Train Depot is now a historic landmark in the community.
