

SC Highway 295 Treescape

Beautification

Spartanburg County / Men's
Garden Club

\$67,608

Year: 2000

The US Highway 295 Treescape project focused on the bridge area around the US Highway 221 bridge. The enhancements included the planting of a variety of 5 types of large growing trees and 6 types of smaller growing trees. Some of the trees used were Willow Oak trees, Dogwood trees, Crape Myrtle trees, and Yoshino Cherry trees. Since the Highway 221 bridge crosses Highway 295, this enhancement project gets major attention from two busy roads in Spartanburg County.
