Town of Reidville

\$79,080

Year: 2005

The Reidville Town Streetscape project focused on creating safe sidewalks, painted crosswalks, bicycle lanes and lighting, as well as the planting of trees. This project began at College Street and continued to Spring Street in Downtown Reidville. Period lighting, exposed aggregate concrete, and stepping stones (like those used to disembark carriages) were installed along Main Street to preserve the historic nature of the neighborhood.
