

North Pine Street Beautification Phase One Beautification

City of Spartanburg

\$625,000

Year: 1997

The first phase of the North Pine Street Beautification project covered a 1600 foot section from the Chinquepin Creek on Pine Street to the Clinchfield Railroad. The project included clearing and stabilization of stream banks, grassing areas and landscaping with trees and shrubbery. Before the enhancement, the area was overgrown with weeds, brush and trees. The unsightly area has now been transformed into a scenic stretch of road for travelers.
