

Hillbrook Circle Sidewalk

Bike / Pedestrian

Year: 2006

Town of Pacolet

\$79,657

The Hillbrook Circle Sidewalk project was beneficial to the Town of Pacolet because the new construction created concrete sidewalks and grassed buffers along a .52 mile stretch. The new sidewalk began at SC Highway 150 and extended to the existing sidewalk on Hillbrook Circle. The major benefit of this project was that by linking existing sidewalks with new sidewalks, pedestrians now have a safe 2 mile stretch for walking and exercising in their community.
