

APPENDIX I: Cost Estimates

OVERALL ESTIMATED COSTS

Top Priority Pedestrian Improvements	\$12,499,925
Top Priority Intersection Improvements	\$2,118,588
Top Priority Bicycle Improvements	\$1,687,448
<i>Grand Total</i>	<i>\$16,305,959.20</i>

PEDESTRIAN COST ESTIMATES

Top Priority Pedestrian Improvements include sidewalks and some additional streetscape/traffic calming features (depending on project). A top priority project was chosen for each community and ten were chosen for the City of Spartanburg.

INTERSECTION COST ESTIMATES

Top Priority Intersection Improvements include countdown signals, high visibility marked crosswalks, advanced stop lines, curb ramps, and curb extensions. This includes 100 intersections throughout Spartanburg County.

BICYCLE COST ESTIMATES

Top Priority Bicycle Improvements include restripe and stripe bicycle lane and sharrow projects throughout Spartanburg County that require no additional construction, only striping or restriping.

DETAILED ESTIMATED COSTS

Detailed cost estimates were generated for each of the priority cut-sheets in this plan. These estimates are in the form of Microsoft Excel spreadsheets and were submitted on CD to Spartanburg County. Contact info for detailed cost estimates:
